Liaison Process

The Executive Board has suggested the following steps for the Liaison Committee moving forward:

- Set meetings in advance to ensure monthly dialogue with building principals;
- Remind staff in advance of the liaison meetings to forward any concerns they have;
- Make sure staff has an avenue for submitting concerns anonymously;
- Circulate responses to liaison concerns building-wide;
- Consider providing principals a list of concerns in advance so that they can prepare their answers in advance;
- If a liaison committee member does not believe that concerns have been properly addressed, he or she should discuss this with a building union representative.
